Bittium

Bittium Tough Mobile™ 2 Law Enforcement Accessories

Secure and rugged Bittium Tough Mobile™ 2 devices, with complementary accessories are designed for the highest information security and the most challenging conditions. It's a perfect solution for rescue personnel and authorities who require a communication system that is reliable and easy to use.

Bittium Tough Mobile 2 has dedicated Push-to-talk and emergency buttons which allow hands-free operation in emergencies and other critical communication situations.

With the Tough Mobile 2 Multicontainer feature user can access the data of multiple organizations, while all the services are running simultaneously in isolated secure workspaces.

Complement the device with software products, such as Bittium Secure Suite™ and Bittium SafeMove® Analytics, to make it a comprehensive solution for mission critical organizations.

Benefits
